

INT. LABORATORY - 15S SLOW ZOOM IN, SUDDEN CAMERA SHAKE

Nhat is working in potentially hazardous environment. He is either soldering or fixing his bike inside the closed Lab.

-

He feels something wrong but ignores it and continue his works.

-

He chokes, furiously screams, then faints throughout the second scene.

INT. LABORATORY 2 - 40S REWIND FIRST SCENE, CAMERA FOLLOWS THE MC

The MC points 1 finger up and explains the CO2/air poisoning and how hazardous our working/living environment can becomes. He introduces the AQI Tracker as well.

THE MC

Do you knows what causes suffocation to this gentlemen here?

-

Camera panning from Nhat lying near the hazard source to the closed door.

-

THE MC

Closed environment with gradually accumulated hazardous content in the air, carbon dioxide, small particles included.

-

Camera back to the MC.

-

THE MC

But how come he didn't even realize at all? Indeed he does but since the pollutants accumulate in small portions, he wouldn't consider this a threat, till the air was so polluted his body couldn't endure and it was too late then.

-

The MC introducing AQI Tracker.

-

THE MC
 You know what, this could have
 been prevented, if we had this
 miraculous device, the AQI
 Tracker. Just take a look at
 this.

The MC points at the device and change his focus to
 previously-fainted-but-now-gets-up Nhat

INT. LABORATORY 3 - 25S CAMERA PANS TO NHAT WORKING

Nhat concentrates in his work until the small device near him
 buzzes. He looks at the screen now to see that the AQI gets
 bad.

NHAT
 Oh the AQI is bad, I should open
 the door and go outside for a
 while.

Nhat then proceeds to open the door and inhales fresh air
 with a satisfied face.--

INT. OUTSIDE 1 - 80S CAMERA FOCUSES ON NHAT AND THE MC

The MC walk outside with the device on his hand. Both Nhat
 and The MC take turn in introducing the AQI Tracker.
